VALTEO TECH — ACCELERATING SUCCESS

Accelerating Success

YOU DESERVE A PEACE OF MIND

● **TECHNOLOGY IS NOT ENOUGH**
You know you must transform your contracts generation and signing, but how do you start? How do you solve the whole problem, not just waste time and money on the latest technology?

● **YOU KNOW WHAT YOU NEED**
Maybe you don't have all the contracts & signing software expertise in house to deliver on your vision. You want a team of experts to design a turn-key solution, develope it, and help you launch it.

● **HOW YOU'LL WIN**
Translate your vision and roadmap to a turn-key solution, hiring the best minds who've developed similar software, getting a peace of mind that the final solution will make your customers', your coworkers' and your life easier.

It's understandable that you don't trust consulting or technology firms to solve your whole problem.

Many focus just on their piece of technology and offer no turn-key solutions, nor even recommendations on how to solve the whole problem.

Solving your contracting and signing needs shouldn't just include a piece of technology or a tool.

It should include all the systems, the personnel, the processes, the development, training and the maintenance necessary to address all your customers' and staff's needs.

We provide you with a team of experts who've developed contracts and signing automation for companies in your and other industries.

You'll gain the advantage of their experience to bypass the trial and errors of developing a complete solution. As a result, you'll have a turn-key solution to **realize your vision to optimize your operations, gain higher customer satisfaction and market share.**

Simple Integration Plan
Your time is of great value.

Our goal is to efficiently and quickly translate your vision & roadmap into a working solution.

Solution Implementation (SI)
Data Sheet

Before meeting your assigned ValTeo team, our staff will review your needs internally with them and set up an introductory, remote call with you and your staff.

During this introductory call, we'll review what we learned about your needs and provide an overview of the

Simple Integration Plan:

1. Kickoff & Review Requirements
2. Design & Develop Solution
3. Stabilize
4. Deploy & Review

Typical Timeline
This package timeline is flexible to accommodate your availability. Typically, your team will be assigned within a week from purchase. Though the solution development timelines vary, typical implementation will be within six to 12 weeks.

Our Promise to You
…is to deliver a working solution of highest value:

- You'll be assigned a team of experts on process optimization, software design, development, management, deployment, maintenance and solution adoption
- You'll be well informed of all design options, market Best Practices, decision tradeoffs, and solution progress throughout
- You'll have working software at regular increments to review and use
- You'll get a complete schedule of your solution deliverables
- You'll have training on the solution design, development, maintenance and adoption
- You'll have complete access to your assigned team of experts to address any questions about the solution not just during but also after it's delivery

- **Support Material for Marketing & Help Desk**

Price
Available after assessment of your specific needs & requirements.

"When we contacted ValTeo Tech, we had no idea what we needed. We had a general idea of how we wanted the process to flow. ValTeo helped us convert our ideas into a practical platform. Now we have a platform that is better than we imagined and is infinitely scalable."

Miguel Colon, CEO, Crescendo Media
Legal eDiscovery Service Provider

"ValTeoTech met our company's need for leasing contract automation. Their comprehensive understanding of eSigning and processes, as well as respect for our business requirements, enabled the successful implementation of our request in a timely manner. I would recommend ValTeo Tech to any company looking to update a legacy document business process."
